THE MURDER OF HAZEL DREW

Though the police are as far as ever from the complete solution of the mystery surrounding the murder of Hazel Drew, whose body was found in Teal Pond, near Troy, N. Y., last week, they are gradually laying bare the secrets of the young woman's life and are discovering many things that surprise her family and friends.

The latest discovery is that she had not one sweetheart, but many. Today letters were found that prove that the young woman had a secret love affair, and probably several.

By knowing the names of several men who were in the habit of secretly meeting the girl, detectives believe they will be able finally to eliminate all who might be suspected except those directly concerned in her death.

There is a story in circulation to the effect that Hazel often met a Pullman car conductor whose run is between Syracuse and New York.

Over thirty-five years. In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by W. F. Creighton & Co. and Richard Gibson.

LINE OF AIRSHIPS.

Aeroplanes or dirigible balloons will be carrying passengers and freight between New York and Boston within the next eighteen months, if the plans of the American Aerial Navigation Company, which is being organized by Whipple, Sears & Ogden, a law firm of Boston, are carried out. The American Aerial Navigation Company, according to the backers, is created for the purpose of manufacturing and operating aerial devices and the establishment of freight routes for the transportation of freight and passengers in the United States, Canada, and Mexico. The first experimenter will be made with small dirigibles, with a carrying capacity of two passengers in addition to the operator.

Bert Barber, of Elton, Wis., says: "I have only taken four doses of DeWitt's Kidney and Bladder Pills and they have done for me more than any other medicine has ever done." Sold by W. F. Creighton & Co.
